<b>Scientific Practices</b>						50 points
	Outstanding	Above Average	Average	Below Average	Poor	No Evidence
1. The <u>background</u> section of the board clearly describes the information needed to understand the science topic (e.g. decomposition, airborne dust, habitat change).	8	6	4	2	1	0
2. The <u>question</u> section of the board clearly states what question researchers were trying to answer in collecting the data.	6	4	3	2	1	0
3. The <u>procedures</u> section of the board uses <b>the students' own words</b> to describe methods used to collect the data (e.g., who collected data, how data were collected).	8	6	4	2	1	0
4. The <u>variables</u> section of the board accurately identifies the independent variable(s) and dependent variable(s) of the dataset.	6	4	3	2	1	0
5. <u>Graph</u> of data trend used in the creative project <b>is student made</b> and clearly displayed on the board. Computer-generated or hand-drawn graphs are acceptable.	6	4	3	2	1	0
6. The <u>data trend</u> section of the poster accurately describes the trend of the data that are used for the creative project.	8	6	4	2	1	0
7. The <u>possible explanation</u> section of the board contains a plausible explanation for the data trend identified. The explanation is supported by evidence and is consistent with scientific ideas.	8	6	4	2	1	0
