

SCHOOLYARD DESERT DISCOVERY TEACHER WORKSHOP

Inquiry-Based Science for K - 5th Grade

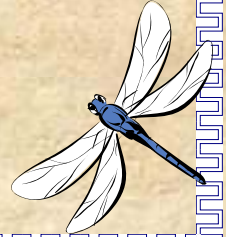

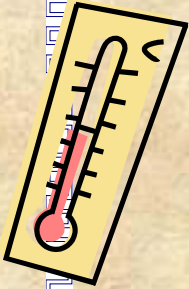

Tuesday, November 2, 2010

9:00 a.m. - 3:00 p.m.

Location: Las Cruces

Cost: \$15 (includes 1-year membership)

Hosted by: Asombro Institute for Science Education
(home of the Chihuahuan Desert Nature Park)

The Schoolyard Desert Discovery Project includes seven different modules with more than 35 activities. For this workshop, we will focus on the Weather and Arthropod Modules. You will learn more than ten activities that can be done in your own schoolyard. Following the workshop, you may borrow Science Investigation Kits that contain the equipment and consumable supplies needed to complete the activities with your students.

All activities:

- Are multidisciplinary and correlated to New Mexico State Education Standards for Science and Math.
- Include bilingual (English/Spanish) reproducible student pages for each activity.
- Exemplify hands-on, inquiry-based science.

TO APPLY - FIRST COME, FIRST SERVED

This project is open to all K - 5th grade teachers in the Las Cruces Public School District. Applications are available on the Asombro Institute for Science Education web site (www.asombro.org) or by calling 575-524-3334. Participants will be selected from all qualified applications with \$15 payment received by **5:00 p.m.**

October 15, 2010.

Space is limited, so apply today!
